Casio XJ S63

Brief Introduction Beta 2.5	The Casio XJ S63 DLP projector has 3500 Ansi lumens, a contrast of 1800:1 and an XGA 1024 x 768 resolution. Horizontal and vertical keystone correction makes setting up the image childs play. Thanks to the brightness of 3500 Ansi lumens, a picture width of 515 cm is possible. The projector will also cope with slightly brighter rooms with a narrower picture width (we recommend max. 343 cm). Playing 1080P is also no problem for the projector. It was launched in 2009 and is no longer offered by the manufacturer Casio. Unfortunately, we can no longer offer a replacement lamp for this model, neither original nor replica.
