ETOE Dolphin 2

Brief Introduction Beta 2.5	The Dolphin 2 Laser DLP Projector from ETOE has 800 ANSI lumens, a native contrast ratio of 1300:1, and an HDTV resolution of 1920 x 1080. Thanks to its laser technology, the projector has a light source lifespan of up to 30,000 hours, which would equate to over 20.5 years at 4 hours of use per day. The horizontal and vertical keystone correction allows for great flexibility in setting up the projector. With its 800 ANSI lumens, the projector can effectively illuminate an image width of up to 246 cm. However, in room lighting conditions, the image width should ideally be less than 164 cm. Thanks to the built-in 5,000 mAh @ 10.8 V (2h) battery, no external power source is required, allowing for quick and flexible setup. With Google TV, the projector can be conveniently controlled via voice commands. Since the projector recognizes Chromecast, AirPlay, and Miracast screen mirroring signals, it?s possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another notable feature is that the projector?s Bluetooth functionality allows it to connect to external wireless speakers. It is also Full HD 1080p compatible.
Display Type	1 x 0,23" DMD DLP Chip HDTV 16/9 Ti Digital Light Processing Chip
Ansi-Lumen	Projector: 800 / Screen: 356 Lux (200 cm Screen width)
Contrast	Projector: 1300:1 native / Screen: 1300:1 native
Black Level	Projector: 0,6154 min. Lumen / Screen: 0,274 min. Lumen
