3D perception CompactView X30Basic

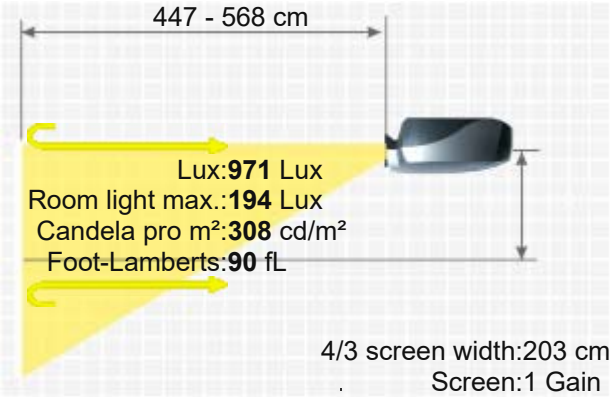

Brief Introduction Beta 2.5	The 3D perception CompactView X30Basic DLP projector has 3000 Ansi lumens, a contrast of 1600:1 and an XGA 1024 x 768 resolution. An image width of up to 477 cm is possible. However, the image should be smaller in room light. We recommend max. 318 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. At 28 decibels, the projector is very quiet compared to other projectors. This model is no longer offered by 3D perception.
Display Type	1 x DDR DLP Chip XGA 4/3 Ti Digital Light Processing Chip
