A brief introduction to the Chinavasion CVSAK 3300. The standard portable LCD projector has a VGA 640 x 480 resolution and a contrast of 500:1. As Chinavasion specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 91 cm is possible, as the projector has 108 Ansi lumens. However, if room light is available, the picture should be max. 61 cm wide. This model is no longer offered by Chinavasion.
