

Favi Pico+ (J6-LED-PICO)

Brief Introduction

Beta 2.5

The Pico+ (J6-LED-PICO) LED DLP has 85 Ansi lumens and a WVGA 854 x 480 resolution. Manufacturer Favi specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. A picture width of up to 94 cm is possible. However, the picture should be smaller in room light. We recommend max. 63 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. On the market since 2014, the model is no longer offered by the manufacturer Favi.
