

Philips Screeneo HDP1590TV

PHILIPS SCRENEO HDP1590TV

The Philips Screeneo HDP1590TV 3D LED DLP projector has 500 Ansi lumens, a contrast of 100000:1 and a WXGA 1280 x 800 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector needs to be just 64 cm away from the screen. The model recognizes Miracast screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). It is also Full HD 1080P and 3D compatible. The operating noise of just 25 decibels makes the projection quiet. This model is no longer offered by Philips, but is still very popular in our projector database.
