

# AAXA M5

AAXA M5

The AAXA M5 micro-portable LED DLP projector has 900 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 800 resolution. Due to the LEDs, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. The integrated media player allows files to be played directly. The projector can illuminate images up to 305 cm wide thanks to its 900 Ansi lumens. In room light, however, the image width should ideally be less than 203 cm. Thanks to the built-in 70-minute Eco Mode battery, no power supply is required, allowing the projector to be set up quickly and flexibly. At 30 decibels, the projector is very quiet compared to other projectors. It came onto the market in 2016 and is no longer offered by the manufacturer AAXA.
