

AAXA P7+

AAXA P7+

The AAXA P7+ model is a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast of 2000:1. The manufacturer claims an LED service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. A picture width of up to 249 cm is possible. However, the picture should be smaller in room light. We recommend max. 166 cm. Thanks to the built-in 38 watt lithium-ion battery, no power supply is required, allowing the projector to be set up quickly and flexibly. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. It is also Full HD 1080P compatible. The operating noise of just 30 decibels makes the projection quiet.

Brief Introduction

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 600
