

Acer H6810BD

ACER H6810BD

Brief Introduction

Beta 2.5

The Acer H6810BD 3D DLP projector has 3500 Ansi lumens, a contrast of 10000:1 and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer specifies a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours a day. Thanks to the brightness of 3500 Ansi lumens, a picture width of 601 cm is possible. The projector will also create slightly brighter rooms with a smaller image width (we recommend max. 401 cm). Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector. On the market since 2020, the model is no longer offered by the manufacturer Acer.
