

Acer HL6518i

ACER HL6518i

A quick look at the HL6518i: The Acer Laser DLP projector offers 4,000 ANSI lumens, a contrast ratio of 1,500,000:1, and an HDTV resolution of 1920 x 1080. Manufacturer Acer specifies a lifespan of 20,000 hours, which amounts to over 13.7 years based on four hours of use per day. The projector is equipped with a built-in media player, so playing files directly will be no problem. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. With 4,000 ANSI lumens, it can project an image up to 643 cm wide. In rooms with ambient light, the projector will produce a narrower image; we recommend a maximum width of 429 cm. It is also compatible with Full HD 1080p and 4K (compressed).
