

Acer P6200

ACER P6200

Brief Introduction

Beta 2.5

The Acer model P6200 is a DLP projector with XGA 1024 x 768 resolution and a contrast of 20000:1. The built-in lens shift and keystone correction function provides freedom in projection adjustment. The model offers a microphone jack plug and 10W speakers, so no additional audio equipment is required for presentations or training courses. 5000 Ansi lumens ensure that a picture width of 616 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 411 cm. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz image mirroring (screen mirroring). Playing 1080P and 3D is also no problem for the projector.
