

Acer PL3510ATV

ACER PL3510ATV

The standard portable PL3510ATV 3D Laser DLP has 4800 Ansi-Lumen, a contrast of 50000:1 and a HDTV 1920 x 1080 resolution. The service life is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector can illuminate images up to 704 cm wide thanks to its 4800 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 469 cm. As the projector optionally recognizes Miracast screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. It is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. At just 26 decibels, the device is one of the quieter projectors.
