

Acer VL6530i

ACER VL6530i

The Acer model VL6530i is a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast of 2000000:1. The service life is 20000 hours due to the laser, which is the equivalent of over 13.7 years at 4 hours. With the lens shift function, the projector can be positioned very freely. An image width of up to 643 cm is possible, if the image width is smaller (we recommend max. 429 cm), rooms with residual light are also no problem. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. Furthermore, the projector can play 1080P and 3D without any problems and can even project Blu-rays onto the ceiling thanks to 360° projection. The projector was launched in 2019 and is no longer sold by the manufacturer.
