With the XL2332, Acer offers a DLP laser projector with WXGA 1280 x 800 resolution and a contrast ratio of 50000:1. Thanks to the laser, the projector has a specified light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The projector can illuminate images up to 740 cm wide thanks to its 5300 ANSI lumens. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 493 cm. The model is also Full HD 1080P compatible.
