

Agreago 1080P Mini Projector

AGREAGO 1080P MINI PROJECTOR

A brief introduction to the Agreago 1080P Mini Projector. The LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 15000:1. The lifespan of the LEDs is 30,000 hours, which would be over 20.5 years at a daily viewing time of 4 hours. The projector can automatically optimise the projected image using the ambient light sensor. The integrated media player can play files directly. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space around it. The projector can easily illuminate images up to 249 cm wide thanks to its 600 ANSI lumens. However, in a well-lit room, the image width should ideally be less than 166 cm. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. The model is also Full HD 1080P and 4K (compressed) and 3D compatible, so the projector can recognise all currently available Blu-ray formats. At just 26 decibels, the device is one of the quieter projectors.

Brief Introduction
Beta 2.5

Display Type

- 1 x LCD TFT Panel
- HDTV 16/9 Liquid Crystal Display
