

Aiptek MobileCinema i50D

Brief Introduction

Beta 2.5

The MobileCinema i50D LED DLP has 35 Ansi-Lumen, a contrast of 1000:1 and a VGA 640 x 480 resolution. It is an LED projector with 20000 hours of light life, which is equivalent to over 13.7 years at 4 hours of use. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 2 hours, allowing it to be set up spontaneously and easily anywhere. It was launched in 2012 and is no longer offered by the manufacturer Aiptek, but is still very popular in our projector database.

1 x DLP Chip
VGA 4/3 Ti Digital Light Processing Chip
