The ALLIWAVA model PR350 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 2000:1. It is an LED projector with 30000 hours of light life, which is equivalent to over 20.5 years at 4 hours per day. The projector can illuminate a picture width of up to 176 cm well thanks to the 300 Ansi lumens. In room light, however, the picture width should ideally be less than 117 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playback of 1080P and 4K (compressed) is also no problem for the projector.
