

Alvar V800P

ALVAR V800P

The Alvar V800P standard portable LED DLP projector has 1000 ANSI lumens, a contrast ratio of 30000:1 and an HDTV 1920 x 1080 resolution. Manufacturer Alvar indicates a lifespan of 30,000 hours, which would be over 20.5 years with 4 hours of viewing per day. An image width of up to 321 cm is possible because the projector has 1000 ANSI lumens. However, if room light is present, the image should be no wider than 214 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. The model is also Full HD 1080P and 4K (compressed) compatible.
