Anker Nebula Capsule Pro

Brief Introduction

The Anker Nebula Capsule Pro LED DLP projector has 100 Ansi lumens, a contrast of 400:1 and a WVGA 854 x 480 resolution. The lifespan of the LEDs is 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. A picture width of up to 102 cm is possible. However, the picture should be smaller in room light. We recommend max. 68 cm. The model is also Full HD 1080P compatible. The projector is very quiet compared to others with an operating noise of 30 decibels.
