

AuKing W29

AU KING W29

A brief introduction to the W29: The AuKing 3D LED LCD projector offers 200 Ansi-Lumen, a contrast of 1500:1 and a HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 55000 hours, which is the equivalent of over 37.7 years at 4 hours a day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. An image width of up to 144 cm is possible. However, the image should be smaller in room light. We recommend max. 96 cm. As the projector optionally recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playing 1080P and 3D is also no problem for the projector.
