

AVANZA LX6

AVANZA LX6

The AVANZA LX6 stationary LED LCD projector has 360 Ansi lumens, a contrast of 100000:1 and an XGA 1024 x 768 resolution. The manufacturer specifies an LED service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. The built-in lens shift function provides freedom when adjusting the projection. As AVANZA specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 360 Ansi lumens, an image width of 165 cm is possible. In room light, the picture should be max. 110 cm wide. Even 1080P video signals are no problem for the projector.
