A brief introduction to the Barco F21. The standard portable DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 2500:1. With the lens shift function, the projector can be positioned very freely. 3000 Ansi lumens ensure that a picture width of 556 cm is also possible. However, if room light is available, the picture should be a maximum of 371 cm wide. The model is also Full HD 1080P compatible. With only 24 decibels of operating noise, the model is already very quiet compared to others. On the market since 2014, the model is no longer offered by the manufacturer Barco.
