

Barco Galaxy 6 Classic+

BARCO GALAXY 6 CLASSIC+

Brief Introduction

Beta 2.5

A brief introduction to the Barco Galaxy 6 Classic+. The large-screen DLP projector has an SXGA+ 1400 x 1050 resolution and a contrast of 1250:1. The built-in lens shift function provides freedom in projection adjustment. 675 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 450 cm. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. It was launched in 2004 and is no longer offered by the manufacturer Barco. It should also be noted that, unfortunately, there are no longer any replacement lamps available for the projector, neither originals nor replicas.

Display Type

3 x DLP Chip
SXGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen
