

Benq LK954ST

BENQ LK954ST

A brief introduction to the Benq LK954ST. The DLP laser projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast of 3000000:1. The manufacturer states a laser life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. Including a lens shift and keystone correction function, which provides freedom during installation. 5100 Ansi lumens ensure that a picture width of 726 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 484 cm. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DLP DC3 Chip
