

Benq LW730

BENQ LW730

The LW730 3D LED DLP projector from Benq has 4200 Ansi lumens, a contrast of 500000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies an LED service life of 20000 hours, which translates to over 13.7 years at 4 hours per day. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. Thanks to the brightness of 4200 Ansi lumens, a picture width of 658 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 439 cm). Furthermore, the projector can play 1080P and 3D without any problems.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" DLP Chip
WXGA 16/10 Ti Digital Light Processing Chip
