

Benq MX615

BENQ MX615

A brief introduction to the Benq MX615. The DLP projector has an XGA 1024 x 768 resolution and a contrast of 3000:1. Thanks to the lamp, the projector has a lamp life of up to 3500 hours, which is over 4.8 years if enjoyed for two hours a day. The integrated media player can play files directly. 453 cm picture width, the projector will be able to illuminate well. However, if room lighting is available, the picture width should ideally not exceed 302 cm. Playing 1080P is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. The projector was launched in 2010 and is no longer sold by the manufacturer.
