

Benq MX723

BENQ MX723

A brief introduction to the Benq MX723. The DLP projector has an XGA 1024 x 768 resolution and a contrast of 13000:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. 3700 Ansi lumens ensure that a picture width of 530 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 353 cm. The model is also Full HD 1080P and 3D compatible. It was launched in 2015 and is no longer offered by the manufacturer Benq.

Brief Introduction

Beta 2.5

Display Type

1 x DLP Chip
XGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen

3700

1233 Lux (bei 200 cm Screen)
