

Benq SX914

BENQ SX914

A brief introduction to the SX914: The Benq 3D DLP projector offers 6000 Ansi lumens, a contrast of 6500:1 and an XGA 1024 x 768 resolution. The integrated lens shift gives freedom when positioning the projector. As the SX914 is equipped with a microphone jack and 10W speakers, no additional audio system is required for presentations or training courses. Thanks to the brightness of 6000 Ansi lumens, a screen width of 675 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 450 cm). The projector can also play 1080P and 3D without any problems. It was launched in 2013 and is no longer offered by the manufacturer Benq.

Brief Introduction

Beta 2.5

Display Type

1 x DLP Chip
XGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen
