

BIGASUO Mini Bluetooth Beamer

The BIGASUO Mini Bluetooth Beamer LED LCD projector has 144 Ansi lumens, a contrast of 3000:1 and a WVGA 800 x 480 resolution. Due to the LEDs, the projector is specified with 50000 hours of light life, which is over 34.2 years if enjoyed for four hours a day. As BIGASUO specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 122 cm is possible, as the projector has 144 Ansi lumens. However, if there is room light, the picture should be max. 81 cm wide. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080P without any problems.
