

Boldever S700

EAN/UPC:B0FSLCVD2Y

Brief Introduction

Beta 2.5

The Standard Portable S700 LED LCD has 1,200 ANSI lumens and an HDTV resolution of 1920 x 1080. The manufacturer, Boldever, specifies a lifespan of 30,000 hours ? which, at four hours? use per day, equates to over 20.5 years. The built-in ambient light sensor (Ambient Light Sensor) detects the ambient light in the room and automatically optimises the image. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. 1,200 ANSI lumens ensure that an image width of up to 302 cm is possible. However, if there is ambient light in the room, the image should be no more than 201 cm wide. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The model is also compatible with Full HD 1080p and 4K (compressed).
