

Byintek Cloud C400K

BYINTEK CLOUD C400K

Brief Introduction

Beta 2.5

The Byintek Cloud C400K LCD projector has 5500 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be positioned very freely. 5500 Ansi lumens ensure that a picture width of 753 cm is also possible. The projector can handle rooms with residual light with a smaller image width, we recommend a maximum of 502 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Video signals 1080P and 4K (compressed) are also no problem for the projector.
