

Byintek P70

BYINTEK P70

The Byintek P70 LED DLP projector has 400 Ansi lumens, a contrast of 5000:1 and a WSVGA 960 x 540 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. 203 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 135 cm. Thanks to the built-in 8000mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Even 1080P and 4K (compressed) video signals are no problem for the projector.
