

Canon XEED WUX500ST Medical

CANON XEED WUX500ST MEDICAL

The Canon XEED WUX500ST Medical short-throw LCOS projector has 5000 Ansi lumens, a contrast of 2000:1 and a resolution. The integrated media player allows files to be played directly. The built-in lens shift and keystone correction function provides freedom when setting up. Thanks to the short throw projection ratio of just 0.56:1, the projector is not distracting in the room. For a 2m wide image, the projector only needs to be 112 cm away from the screen. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P playback is no problem for the projector. On the market since 2017, the model is no longer offered by the manufacturer Canon, but is still very popular in our projector database.

3 x 0,71" Lcos Chip
WUXGA 16/9 Liquid Crystal on Silicon (LCOS)
