

Caydo P2

CAYDO P2

Brief Introduction

Beta 2.5

A brief introduction to the Caydo P2. The LCD LED projector has an HDTV resolution of 1920 x 1080 and 250 ANSI lumens. Thanks to the LEDs, it has a lifespan of 20,000 hours, which, based on 4 hours? viewing per day, would equate to over 13.7 years. Files can be played directly via the built-in media player. Horizontal and vertical keystone correction provides flexibility when setting up the projector. The 250 ANSI lumens ensure that an image width of up to 161 cm is possible. However, if there is ambient light in the room, the image should not exceed 107 cm in width. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to stream high-resolution videos with surround sound via Wi-Fi directly from a smartphone, tablet, PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also Full HD 1080p compatible.
