

Chinavasion Pico Star

Brief Introduction

Beta 2.5

The micro-portable Pico Star LED LCOS has 45 Ansi lumens, a contrast of 1000:1 and an SVGA 800 x 600 resolution. The lifespan of the LEDs is 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player can play files directly. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. Even 1080P video signals are no problem for the projector. With only 30 decibels of operating noise, the model is already very quiet compared to others.

Display Type

1 x LCoS
SVGA 4/3 Liquid Crystal on Silicon (LCOS)
