

Christie DW6k neu

CHRISTIE DW6K NEU

A brief introduction to the DW6k: The Christie DLP projector offers 7000 Ansi lumens, a contrast of 1600-2000:1 and HDTV 1280 x 720 resolution. The integrated lens shift gives freedom when positioning the projector. 7000 Ansi lumens ensure that a picture width of 850 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. On the market since 2005, the model is no longer offered by the manufacturer Christie.
