

CZUR StarryHub Q1 Pro

CZUR STARRYHUB Q1 PRO

Brief Introduction

Beta 2.5

A brief introduction to the CZUR StarryHub Q1 Pro. The DLP LED projector has an HDTV 1920 x 1080 resolution and 2200 Ansi-Lumen. The lifespan is 30,000 hours due to the LEDs, which is over 20.5 years with four hours of use per day. Since the projector has horizontal and vertical keystone correction, it can be set up with a lot of space in the room. The brightness of 2200 ANSI lumens makes a picture width of 477 cm possible. In room light, the picture should be a maximum of 318 cm wide. Since the projector recognizes Chromecast, Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Furthermore, the projector can play 1080P without any problems. At just 24 decibels, the device is one of the quieter projectors.

Display Type

1 x 0,47" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 2200

- Features
- Full HD 1080P compatible
 - Wi-Fi network compatible.
 - Lan network compatible.
 - Short-throw projector
 - StarryOS (Based on Android)
 - Conference hub with camera and microphone
 - TouchBoard external touchpad and keyboard
 - Peripheral Mode (BYOM)

Screen Mirroring Airplay, Miracast, Chromecast
Video Camera
Resolution
1920*1080 FHD
Camera Angle 120° wide angle
Distortion Rate <3
Camera Type HD WDR
Video Meeting Feature
Auto framing
CZUR AI Optimization

Please note Auto-adjustment based on external lighting enviroment, portrait optimization, 3D distortion reduction

Mic. Array
Array Type
Circular Array with 6 microphones, sound pick-up with 360°
Sound Pick-up Distance
8-10meter (direct distance)
CZUR AI Optimization
Echo cancellation, auto noise reduction, human voice enhancement, auto volume balance/adjustment
Status
2025 Current model // Last update of the data: 2025-04-07
Created: 2025-03-13 10:29:42
