The A89 Mini Beamer LED LCD has 900 Ansi-Lumen, a contrast of 15000:1 and a HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 160000 hours of light life, which is over 109.6 years with a daily viewing time of 4 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As DEERFAMY specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 305 cm image width, the projector will be able to illuminate well. If room light is available, however, the image width should ideally not exceed 203 cm. The integrated Google Assistant turns the projector into a hub in the smart home, combining voice control and a wide range of functions. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). The projector can also play 1080P and 4K (compressed) without any problems.
