

Dell S510

DELL S510

Brief Introduction

Beta 2.5

The Dell S510 DLP projector has 3100 Ansi lumens, a contrast of 8000:1 and a WXGA 1280 x 800 resolution. The integrated media player allows files to be played directly. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training sessions. 3100 Ansi lumens ensure that a screen width of 566 cm is also possible. However, if room light is available, the picture should be a maximum of 377 cm wide. The projector also offers a whiteboard function that makes training and presentation rooms interactive. It is also Full HD 1080P compatible. On the market since 2015, the model is no longer offered by the manufacturer Dell, but is still very popular in our projector database.
