The short-throw DreamVision Argos laser DLP projector has 3200 Ansi lumens and a UHD (4K2K) 3840 x 2160 resolution. Due to the laser, the service life is 25000 hours, which is equivalent to over 17.1 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. This projector has a projection ratio of just 0.21:1. For a 2 m wide image, the projector only needs to be 42 cm away from the screen. The projector can also play 1080P and 4K without any problems. With an operating noise of just 30 decibels, the model is already very quiet compared to others.
