

DreamVision DreamBee

DREAMVISION DREAMBEE

The DreamBee DILA has 1000 Ansi-Lumen, a contrast of 15000:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift function provides freedom when setting up. An image width of up to 321 cm is possible as the projector has 1000 Ansi lumens. However, if room light is available, the image should be a maximum of 214 cm wide. Playing 1080P is also no problem for the projector. The operating noise of just 22 decibels makes the projection quiet. The model was built by DreamVision in 2007 and is no longer current, but is still one of the very popular projectors.
