Elmo MP 700EX

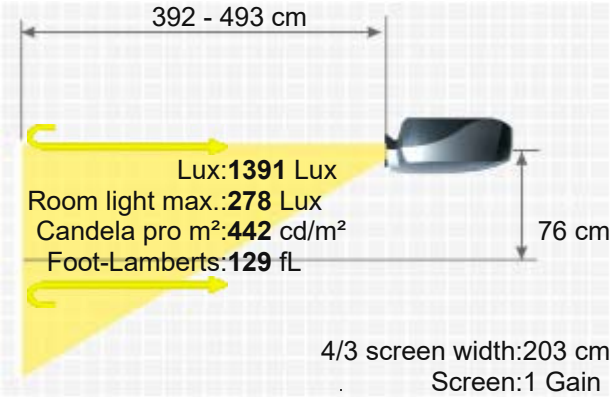

3LCD Bild im Bild

A brief introduction to the Elmo MP 700EX. The stationary LCD projector has an XGA 1024 x 768 resolution and a contrast of 500:1. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 4300 Ansi lumens ensure that a picture width of 571 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 381 cm. It came onto the market in 2008 and is no longer offered by the manufacturer Elmo. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.
