Epson EB-1460UI

Top

Brief Introduction Beta 2.5	The whiteboard Epson EB-1460UI LCD projector has 4400 Ansi lumens, a contrast of 16000:1 and a WUXGA 1920 x 1200 resolution. The lamp life is specified by the manufacturer as 10000 hours, which converts to over 13.7 years at 2 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. As the EB-1460UI is equipped with a microphone jack and 16W speakers, no additional audio system is required for presentations or training courses. 4400 Ansi lumens ensure that a picture width of 674 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 449 cm. The projector offers an interactive whiteboard function for interactive training courses and presentations. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It is also Full HD 1080P compatible. The model built in 2017 is no longer offered by Epson, but is still very popular in our projector database.
Display Type	3 x 0,67" LCD TFT Panel mit MLA WUXGA 16/9 Liquid Crystal Display with Micro Lense Array
Ansi-Lumen	Projector: 4400 / 2900 im Eco Mode — Screen: 1956 Lux (bei 200 cm Screen)
