

Epson EB-2250U

EPSON EB-2250U

The Epson EB-2250U LCD projector has 5000 ANSI lumens, a contrast ratio of 15000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a lamp life of 10,000 hours, which equates to over 13.7 years at 2 hours per day. It includes an integrated media player that allows files to be played directly. Horizontal and vertical keystone correction provides flexibility when setting up. The projector can illuminate a screen width of 718 cm. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 479 cm here. With the HDMI MHL port, you can mirror your smartphone screen in Full HD at 60 Hz on the projector while charging your phone at the same time. The projector can also play 1080P without any problems. The 2017 model is no longer available from Epson, but its still a popular projector in our database.
