

Epson EB-770Fi

EPSON EB-770Fi

The Epson EB-770Fi 3D laser LCD projector has 4100 Ansi lumens, a contrast of 2500000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The integrated media player can play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. Thanks to the short throw projection ratio of just 0.25:1, the projector is not distracting in the room. For a 2m wide image, the projector only needs to be 50 cm away from the screen. As the projector recognizes Miracast screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. It is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.
