

Epson EB-L200W

EPSON EB-L200W

The standard portable EB-L200W laser LCD has 4200 ANSI lumens, a contrast ratio of 2500000:1 and a WXGA 1280 x 800 resolution. Manufacturer Epson specifies the service life as 20,000 hours, which would be over 13.7 years based on 4 hours of viewing per day. The integrated media player can play files directly. Horizontal and vertical keystone correction provides flexibility when setting up. As the EB-L200W is equipped with a microphone jack and 16W speaker, no additional audio equipment is required for presentations or training courses. An image width of up to 658 cm is possible; if the image width is smaller (we recommend max. 439 cm), even rooms with residual light are no problem. Since the projector recognizes Miracast screen mirroring signals, it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). The model is also compatible with Full HD 1080P and 4K (compressed).
