

Epson EB-L255F

EPSON EB-L255F

A brief introduction to the EB-L255F: The Epson 3D laser LCD projector offers 4500 Ansi lumens, a contrast of 2500000:1 and HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of up to 682 cm thanks to its 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The model is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.
