

Epson USA PowerLite 1776W

EPSON USA POWERLITE 1776W

Brief Introduction

Beta 2.5

A brief introduction to the Epson USA PowerLite 1776W. The LCD projector has a WXGA 1280 x 800 resolution and a contrast of 2000:1. The manufacturer claims a lamp life of 4000 hours, which is over 5.5 years if enjoyed for two hours a day. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction provides leeway when setting up. An image width of up to 556 cm is possible as the projector has 3000 Ansi lumens. However, if there is room light, the picture should be a maximum of 371 cm wide. The model is also Full HD 1080P compatible. The projector was launched in 2012 and is no longer sold by the manufacturer, but is still very popular in our projector database.
