

Epson USA Home Cinema 980

EPSON USA HOME CINEMA 980

Brief Introduction

Beta 2.5

Brief introduction to the Epson USA Home Cinema 980. The LCD projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 16000:1. The lamp has a service life of up to 12,000 hours, which would be over 16.4 years if viewed for 2 hours a day. Built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. 4000 ANSI lumens ensure that an image width of 643 cm is also possible. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 429 cm. The model optionally recognizes Chromecast, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Even 1080P video signals are no problem for the projector. It should also be noted that unfortunately there are no longer any replacement lamps available for the projector, neither original nor replica.
