

Epson USA Lifestudio Flex Plus

EPSON USA LIFESTUDIO FLEX PLUS

The Standard Portable Lifestudio Flex Plus LED LCD Projector from Epson USA has 1250 ANSI lumens, a contrast ratio of 5000000:1, and a UHD (4K2K) 3840 x 2160 resolution. The LEDs have a service life of 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. The projector can illuminate up to 359 cm of image width thanks to its 1250 ANSI lumens. However, in room lighting, the image width should ideally be less than 239 cm. Thanks to the integrated Google Assistant, the projector can be conveniently operated by voice command, from searching for movies to controlling your smart home devices. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The model recognizes Chromecast and screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K without any problems. At just 28 decibels, the device is one of the quieter projectors available.

Brief Introduction Beta 2.5

Display Type

3 x 0,62" LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen
